

# ACKNOWLEDGEMENT

It gives us an immense pleasure to write an acknowledgement to this project, a contribution of all people who helped us realize it.

Our heartfelt gratitude to **Dr. M S Bhagyashekar, Principal**, Vivekananda Institute of Technology, for his constant support.

We would like to convey our heartfelt thanks to **Prof. Chandramma R, Associate Professor and Head**, Department of Computer Science and Engineering for giving us the opportunity to embark up to this topic.

We would like to sincerely thank our project guides **Prof. Lakshmikantha G C, Assistant Professor** and **Prof. Pragathi M Kaliwal, Assistant Professor**, Department of Computer Science and Engineering for their invaluable guidance, constant assistance, support and constructive suggestions for the betterment of the prefect, without which this project would have not been possible.

Finally, it is a pleasure and happiness to the friendly co-operation showed by all the staff members of computer science department, VKIT.

**Naveen P Pandurangi    1VK15CS034**

**Nikhil Chandran        1VK15CS038**

## **ABSTRACT**

The Music Streaming Website is developed for music companies/bands who are apparently seeking to invest in the music streaming industry across the globe which in result to acquire profitable revenue. However, the craze over the music is a perpetual process where the majority of music listeners are constantly are on music applications to enjoy the rhythm in their headphones just within a matter of clicks. Certainly, the growth of music listeners auditory is progressively transforming into Music Consumer Market. This has directed to mushroom some global music application giants like Spotify, Sound Cloud etc. These promising facts are the reasons that tempt every aspiring professional to build a music streaming website/app just alike Spotify. The Website also targets several other audiences who are interested in listening to music and are regular streamers of music. People of any age group can access this website since there are different categories on this site. There are over hundreds of music to choose from, along with different genres of music. The Website is also very user-friendly even people with very less knowledge can use this site without any problems.
